

SIGNAGE

Engage your audience and display important information in real time.

Messages have never looked this good.

TIKS *Signage*, is an integrated digital cloud-based or self hosted signage solution built to deliver marketing and safety messages via digital displays.

Signage allows for content and messages to be displayed on digital signs with the aim of delivering targeted messages and content to specific locations at specific times.

Features:

- ✔ Ideal for office entrances and foyers
- ✔ Update digital directories listings
- ✔ Update information quickly
- ✔ Schedule messages
- ✔ Deliver live content and messages to your customers
- ✔ Create dynamic graphical content
- ✔ Save on printing costs
