

CHEMICALS

Keeping you workplace safe from chemicals.

Make sure your workforce is safe when operating on-site.

TIKS *Chemicals* integrates with RMT's ChemAlert solution, allowing users to now achieve compliance with their chemical management legislative requirements through multiple devices such as a kiosk and mobile devices.

TIKS *Chemicals* makes accessing your MSDS and summary reports easy, fast and available 24/7. Your workforce can now search for an approved chemical and access reports that have been designed to provide your workforce with up to date information including legislative classifications, chemical properties, First Aid information and recommended Personal Protective Equipment through your existing ChemAlert database.

Feature:

- ✓ Increase site safety
- ✓ Access all your MSDS and summary reports
- ✓ View reports digitally
- ✓ Identify what chemicals are allowed on site
- ✓ Available via a kiosk or mobile devices
