

WAYFINDER

The most popular and effective solution to leading the way.

Increase client satisfaction to your end users as they easily navigate through your facilities with a user-friendly, content and animation rich interface.

TIKS *Wayfinder* is a web based application that can run on kiosks, mobile devices and on websites. *Wayfinder* has been designed to provide a pleasant and convenient wayfinding experience.

Features:

- ✔ Control and keep content up to date
- ✔ Simple, intuitive navigation for all users
- ✔ Animated paths showing the journey from origin to destination
- ✔ Maps are always orientated to the direction of the user whilst providing the quickest route across multiple levels
- ✔ TIKS Admin allows you to easily manage content and access user statistics
- ✔ Custom branding
